Ordering Fabric

When placing orders, please include both the name of the fabric as well as the fabric number. For example: "B103 Navy Blue". This will help ensure accuracy of your order.

Crypton Fabrics

Fabrics marked as "Crypton" are coated by the manufacturer for superior resistance to moisture, stains, odor, and bacteria. All while allowing for airflow throughout the fabric.

General Cleaning

Most dirt and grime can be cleaned simply with a mixture of mild dish soap and water. For mildew and certain stains, a mixture of 1 cup bleach to 1 gallon water and 1 tablespoon mild dish soap may be used. Be sure to thoroughly rinse and allow to air dry completely before further use. Use of pressure washers, harsh chemicals, and abrasive materials may cause damage to the fabric that is not covered under warranty.
